ZPZ Coin Whitepaper

AI-Powered Smarter Trading Coin

Version: 1.3 • Date: October 20, 2025
Network: Polygon (PoS)
Website / Socials: https://zpzcoin.io/

1. Executive Summary

ZPZ is the utility token of the ZPZ Trading ecosystem, created to empower retail traders with advanced AI-Powered utilities, analytics, governance, staking, and community-driven growth. Built on Polygon (POL), ZPZ provides token-gated access, DAO participation, and adoption incentives. Fixed, non- inflationary supply with 50% long-term locked float.

2. Vision & Mission

Vision:
To redefine trading by powering a unified, data-driven ecosystem where every transaction, reward, and strategy is fueled by ZPZ Coin, enabling smarter trading, portfolio management, AI-driven insights, staking rewards, governance voting, and token-gated access to advanced analytics.

Mission:
To integrate blockchain utility with real-time market intelligence, creating a smarter, fairer, and reward-based trading experience for everyone through access control, premium AI tools, community incentives, copy trading, and marketplace transactions.
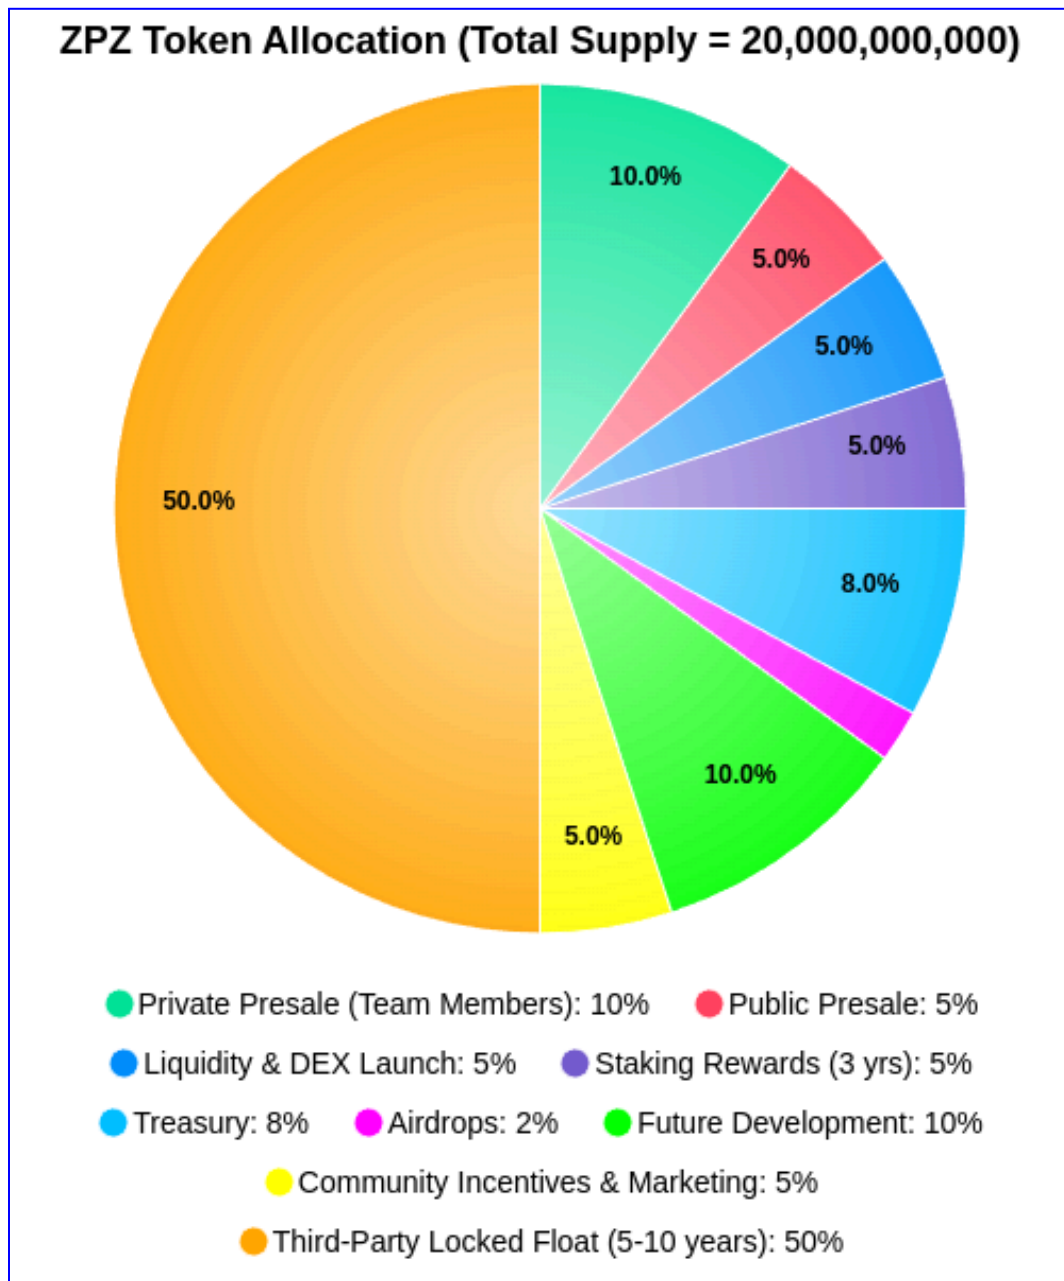

3. ZPZ Utilities

- Staking Rewards: 17% → 9% → 4% (fixed pool).
- Governance: Proposals & votes on priorities, treasury, listings.
- Premium Access: Indicators, mentorship, elite tiers.
- Payments: Alerts, mentorships, subscriptions, AI tools.
- NFT & Reputation: Badges and milestone NFTs.
- Community Incentives: Referrals and ambassador programs.
- Data Access: Token-gated feeds.
- Treasury & Development: Ops, listings, integrations.

4. Tokenomics

Token: ZPZ (ERC-20, Polygon), 18 decimals. Total supply: 20,000,000,000 ZPZ (fixed). Third-Party Locked Float: 50% (10B) in escrow; unlocks begin Year 5 at 10% of locked float per year.

Category	%	Amount (ZPZ)	Notes
Private Team Allocation Presale	10%	2,000,000,000	@ $0.001 (completed)
Public Presale	5%	1,000,000,000	@ $0.005, Oct 1 – Dec 31, 2025
Liquidity & DEX	5%	1,000,000,000	$0.01 launch pairs
Staking (3 yrs)	5%	1,000,000,000	APYs 17%/9%/4%
Treasury	8%	1,600,000,000	Ops & DAO
Airdrops	2%	400,000,000	Early adopters
Development	10%	2,000,000,000	Upgrades, integrations, audits
Community & Marketing	5%	1,000,000,000	Adoption & partnerships
Third-Party Locked Float (Escrow)	50%	10,000,000,000	Vesting starts Year 5

Figure 1: ZPZ Token Allocation

ZPZ Token Allocation (Total Supply = 20,000,000,000)

- Private Presale (Team Members): 10%
- Public Presale: 5%
- Liquidity & DEX Launch: 5%
- Staking Rewards (3 yrs): 5%
- Treasury: 8%
- Airdrops: 2%
- Future Development: 10%
- Community Incentives & Marketing: 5%
- Third-Party Locked Float (5-10 years): 50%

5. Presale & Distribution

- Private Team Allocation Presale: 10% @ $0.001 (completed).
- Public Presale: Oct 1 – Dec 31, 2025 — 1B @ $0.005.
- DEX Launch: Jan 10, 2026 at $0.01 (Polygon).
- Target CEXs: Q2 2026 (KuCoin, Gate.io, MEXC, OKX, BitMart); larger venues to follow.
- Purchase Limits: Standard $10k; Lifetime $15k.
- Finality: All sales are final; trading begins on exchanges.

6. Roadmap

- Q4 2025: Public presale.
- Q1 2026: DEX launch & token lists.
- Q2 2026: Initial CEX listings.
- 2026–2027: NFT/reputation, data integrations, mentorship.
- Post-Vesting (Year 5+): Expanded DAO & staking; grants.
- Long Term: Cross-chain expansion and partnerships.

7. DAO Governance (Summary)

- Model: Snapshot voting (1 ZPZ = 1 vote) with delegation; on-chain execution via timelock and Gnosis Safe.
- Scope: Features/partnerships; treasury & grants; parameter updates; upgrades/deployments.
- Process: Forum review (3 days) → Snapshot vote (5 days) → Timelock (72h) → Execution; calldata and tx hashes are published.
- Thresholds: Proposal threshold 0.10% of circulating ZPZ; quorum 5% (8% for major actions); simple majority to pass.
- Treasury: 4/7 multisig. Tiers — T1 ≤$25k (council, $100k/mo cap), T2 $25k–$250k (DAO vote), T3 >$250k (higher quorum & timelock).
- Safeguards: Emergency pause (7 days, report in 24h), audits & bug bounties, quarterly reports, signer rotation policy.
- Decentralization: Guardian powers sunset after 12 months or earlier by DAO vote.

8. Security & Audit

- Auditor: OpenZeppelin (planned); reports published.
- Controls: Reentrancy guards, role-based access, pausable modules, MEV/sniping mitigations.
- Key Management: Multisig custody; separation of duties.
- Bug Bounty: Public program with tiers.
- Audit Timeline: Internal checks pre-presale; external audit pre-DEX; audits on major upgrades.

9. Legal & Compliance

- Utility token; not equity; no profit promises.
- Regional restrictions may apply; comply with local laws.
- All sales final; market pricing determined post-launch.
- KYC/AML requirements for large purchases will be published before presale.
- ZPZ branding & ticker: trademark pending.

10. Branding & Ticker

- Ticker: ZPZ (Polygon).
- Slogan: AI-Powered Smarter Trading Coin.
- Brand kit to be published prior to launch.

11. Conclusion

ZPZ powers a community-driven trading ecosystem with fixed supply, long-term escrow, and audited contracts—built for transparency, sustainability, and growth.

Appendix

Vesting & Unlocks: Locked Float (10B) unlocks from Year 5 at 10% of locked float per year; staking rewards (1B) distributed over three years.
